PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science student with hands-on experience in SAP CPI (Cloud Platform Integration) and a strong foundation in Machine Learning. Completed internship at Global Trust IT Services, where I developed and managed integration flows, worked with APIs, and handled data transformation.

I have also worked on projects like stress prediction using ML, applying data preprocessing and model building techniques. Along with technical skills, I possess strong problem-solving abilities, teamwork, and communication skills.

I am eager to start my career in a dynamic organization where I can apply my knowledge, learn new technologies, and contribute effectively to business solutions.

KEY EXPERTISE

SAP | SQL | Python | Groovy | XML | JSON | ML

EDUCATION

Sagar Group of Institutions - SISTec — 2023 - 2027

B.Tech. - Artificial Intelligence & Data Science - SISTec GN | CGPA: **7.04** / **10**

Holy Cross Co-Ed Sr. Sec. School, Bhopal — 2023

12th | CBSE | Percentage: **70** / **100**

Holy Cross Co-Ed Sr. Sec. School, Bhopal — 2021

10th | CBSE | Percentage: **73** / **100**

AWARDS AND SCHOLARSHIPS

- Runner up - Kho Kho Nodals 2023

INTERNSHIPS

Global Trust IT Services | IT Product & Services — 25 Sep, 2025 - 25 Jun, 2026

Software Developer Intern

Key Skills: SuccessFactors | Postman | SAP CPI

During my internship at Global Trust IT Services, I am working as an SAP CPI (Cloud Platform Integration) Integration Developer, gaining hands-on experience in designing and developing integration solutions on the SAP Business Technology Platform.

I was involved in creating and configuring integration flows (iFlows) to enable seamless communication between different systems using protocols like HTTP, and RESTful APIs. I worked with data transformation techniques, including XML and JSON processing, message mapping, and routing.

Additionally, I gained exposure to exception handling, monitoring, and debugging of integration processes to ensure smooth data exchange. I also learned to use adapters, manage endpoints, and implement basic security configurations.

This internship helped me strengthen my understanding of enterprise integration concepts, cloud-based middleware, and real-time data processing, while also improving my problem-solving and teamwork skills in a professional IT environment.

PROJECTS

Stress Prediction using ML

01 Oct, 2025 - 01 Jan, 2026

Mentor: Ms. Ruchi Jain | **Team Size:** 3

Key Skills: Django Python ML

Project Link: https://github.com/Pragativishwakarma/MindWell-AI-Powered-Mental-Wellness-Stress-Detection-System-using-DJANGO.git

This project focuses on predicting stress levels in individuals using machine learning techniques based on behavioral and physiological data. The goal is to identify patterns that indicate stress and provide early detection to support mental well-being.

The system uses datasets containing features such as sleep patterns, heart rate, work hours, screen time, and lifestyle habits. Data preprocessing techniques like cleaning, normalization, and feature selection were applied to improve model accuracy. Various machine learning algorithms such as Logistic Regression, Decision Tree, and Random Forest were implemented and compared to find the most effective model.

The model was trained and tested using appropriate evaluation metrics like accuracy, precision, and recall. The final system can classify whether a person is stressed or not based on input data.

This project helped in understanding real-world applications of machine learning, data analysis, and model optimization, while also highlighting the importance of mental health monitoring.

ACHIEVEMENTS

- Webmaster - IEEE Student Branch
- Editorial Team Lead - Student Activity Council

ASSESSMENTS / CERTIFICATIONS

AMCAT Aptitude

27 Dec, 2025

Aggregate: 68 / 100
Subjects: Logical Reasoning, Comm Skills, Aptitude (60 / 100)

Key Skills: Leadership Intelligence Ideation

Successfully completed the Aspiring Minds Computer Adaptive Test (AMCAT), a standardized assessment designed to evaluate employability skills and job readiness. The certification covers key areas such as aptitude (quantitative, logical reasoning), English communication, and domain-specific technical skills.

The test follows an adaptive pattern, adjusting the difficulty level based on performance, ensuring an accurate evaluation of abilities. Through this certification, I demonstrated strong problem-solving skills, analytical thinking, and proficiency in core technical concepts.

This certification reflects my readiness for professional roles and my ability to perform effectively in a competitive environment.

AMCAT Spoken English

27 Dec, 2025

Aggregate: 60 / 100
Subjects: English Speaking and Pronounciation (60 / 100)
Key Skills:

English Communications Interpersonal Communication Corporate Communications Community Building Communication Skills

Successfully completed the AMCAT Spoken English Assessment, which evaluates verbal communication skills, pronunciation, fluency, grammar, and overall speaking ability. The test is designed to measure how effectively a candidate can communicate in professional and real-world situations.

Through this certification, I demonstrated strong spoken English skills, including clarity of speech, proper pronunciation, and the ability to express ideas confidently. It also reflects my readiness to communicate effectively in workplace environments, presentations, and team discussions.

This certification highlights my communication proficiency and my ability to interact confidently in English in both professional and social settings.

POSITIONS OF RESPONSIBILITY

IEEE Student Member

Achieved **IEEE Student Membership**, becoming part of the **Institute of Electrical and Electronics Engineers (IEEE)**, a globally recognized professional organization. This membership reflects my interest in advancing knowledge in the fields of technology, engineering, and innovation.
As an IEEE student member, I gained access to technical resources, research papers, webinars, and professional networking opportunities. I also participated in workshops, seminars, and technical events organized by the IEEE student branch, which enhanced my technical knowledge and practical exposure.
This certification highlights my commitment to continuous learning, professional development, and staying updated with emerging technologies in the IT and engineering domain.

Student Coordinator Sagar Fiesta

Awarded a certificate for active participation as a **Student Coordinator**, recognizing my contribution in organizing and managing academic and technical events. In this role, I assisted in planning, coordinating, and executing various activities, ensuring smooth event operations.
I worked closely with faculty members and team members to handle responsibilities such as communication, scheduling, and participant management. This experience helped me develop strong leadership, teamwork, and organizational skills, along with the ability to handle responsibilities under pressure.
This achievement reflects my proactive involvement in extracurricular activities and my ability to contribute effectively to team-driven initiatives.

SEMINARS / TRAININGS / WORKSHOPS

Git and GitHub **Institute Name:** Sagar Group of Institutions - SISTec 22 Apr, 2024 - 22 Apr, 2024

Key Skills: GIT Github

Attended a training program on Git and GitHub, where I learned essential version control concepts such as creating repositories, committing changes, branching strategies, merging, and resolving conflicts. I also gained hands-on experience in using GitHub for collaboration, pull requests, and project management.

CO-CURRICULAR ACTIVITIES
